If you like to match the journey with a short holiday, we will advise and help you with all your questions to Tirol = excursions, sights, shopping and stay or Austria = for instance a day trip to Salzburg or 2-3 days to Vienna

Terms, conditions and liability

The event is limited to 25 organs. The attendance depends on the time order of applications or rather the choice of the event organizer.

In case of a denial we hope for your understanding.

The event is placed at the inner town of Schwaz with various playing areas

There is a change of the playing area every half hour.

The playing areas are in nearby, so the organs don't disturb each other.

If this case emerges, we'll find a new coordination.

The organ play is situational, depends on the audience and frequency, brakes = why not Amplifiers aren't allowed

Participants/placers take part in their own responsibility.

Especially placing and attendance of their organs/instrument is part of their responsibility.

The event organizer provides a locked room on saturday afternoon

There is no liability of the event organizer in case of theft or daage of the organs/instruments

With your written application you confirm our terms and conditions and commit yourself, after our confirmation, to take part with your organ.

In case of changes, they are to tell the event organizer prompt.
